FOREWORD

U. S. PATENT OFFICE

1942

IN compiling our 1942 Catalog we have discontinued a number of duplicate items shown in previous catalogs. We believe, however, that from the diversity of items shown herein proper selections can readily be made to meet the needs of the discriminating buyer for today's Modern Beauty Salon.

In making these changes we have endeavored first, to see that our customers shall have no lack of well designed and useful equipment, and second, to use our available supply of raw materials efficiently and to the best advantage for the good of all.

We shall continue our policy of developing new ideas and of adopting better materials as fast as proven practicable, while ever striving to maintain our high standards of quality and excellence.
